Issued January 26, 2005

Effective January 27, 2005

A. Description

Operator assistance is available to callers who want to place international Operator assisted calls. Operator assistance for certain calls may be provided by a Company Operator or by the Company's automated Operator system. The following types of calls are available for Operator Assistance:

- **BILLED-TO-THIRD NUMBER CALLS** – Operator assistance will establish the international call requested by the caller and arrange for billing of associated charges to a domestic telephone number specified by the caller that is other than the calling telephone number. Requests for Third Number Billing are subject to Operator verification that the party at the telephone number to be billed will accept charges for the call. As necessary, other subsequent efforts may be undertaken by the Company to determine responsibility for payment of such calls.
- **PERSON-TO-PERSON CALLS** – At the caller's request, Operator assistance will attempt to place an international call to a particular party at an international telephone number specified by the caller. The party specified by the caller may be a person, station, department, extension or office. If successful, the Operator will establish the Person-to-Person call between the calling and called parties. If the identified party is not available and the caller requests, or agrees, to speak to a party other than the party initially specified, the call will be established and billed at the Person-to-Person call rates.
- **OPERATOR DIALED DIRECT CALLS** – Operator assistance is available to Customers who want an Operator to dial their international call for them. Operator Dialed Direct calls do not include: Collect calls, Billed-to-Third Number calls, or Person-to-Person calls.
- **REAL TIME RATED CALLS** – Operator assistance is available to provide the time (duration) and charges associated with an Operator assisted international call. A Company Operator must establish the call for which time and charges are requested. The caller must provide the calling and called telephone numbers to the Operator and request the Operator to provide the time and charges associated with such call upon completion of the call.

 - From the Mainland:
 - Duration of the call is recorded in whole minutes, with partial minutes rounded up to the next whole minute (for example, a 45-second call will be billed as a one-minute call).
 - Per minute rates apply based on country called, time of day and in some cases day of week (as indicated on the rate table).
 - Rates for calls to Canada are also based on mileage.

 - If a call originates in one rate period, but concludes in another rate period, the rate applicable at the start of the call applies to the entire call
- A Per call service charge applies to each Operator Assistance call. The service charge is based on country and billing method.
