10. CONSTRUCTION and MAINTENANCE

A. General Provisions

1. Quality

In the construction, installation, operation, maintenance, repair, service, reconstruction, removal, or other work of the Cable System, Company shall ensure the Cable System meets the rules and regulations of the Federal Communications Commission.

2. Compliance with Laws and Regulations

All work, including all working conditions and facilities, associated with the construction, installation, operation, maintenance, repair, service, reconstruction, removal, or other work of the Cable System must comply with:

- a. All applicable Federal Laws, Rules and Regulations;
- b. All applicable State Laws, Rules, Regulations and Codes, including building and electrical codes; and,
- c. All generally applicable ordinances, including zoning ordinances, of the Town.

Company shall obtain all generally applicable permits before commencing any construction, installation, operation, maintenance, repair, service, reconstruction, removal, or other or property use in the public rights of way. Permits for emergency work must be obtained as soon as possible, but in no event later than one business day after the work is begun. The grant of permits by the Town will be timely and not be unreasonably withheld.

3. Public Ways Hazards

Any openings or obstructions in Streets or other municipal or public property made by Company must be guarded and protected at all times by the placement of adequate barriers, fences, boardings or other protective devices at the sole expense of Company. During the periods of dusk and darkness, the protective devices must be clearly designated by warning lights.

4. Tree Trimming

Company has the authority to trim any trees upon and overhanging the Town's Streets or Public Ways to the minimum extent necessary to prevent the branches of such trees from coming in contact with the wires and cables of Company; provided that, except for incidental trimming done by Company employees in the course of performing their other duties, any tree trimming within the rights of way of the Town's Streets and Public Ways done by Company will take place only after providing 48-hour notice to the Town Manager of the Town.

In performing tree trimming, Company shall use its best efforts to avoid any unnecessary damage or injury to trees, and shall comply in all respects with any Town ordinances governing tree trimming.

5. Restoration of Damage

Company, at its sole expense, shall restore all damage to property, both public and private, caused by the construction, installation, operation, maintenance, repair, service, reconstruction, removal, or other work of the Cable System, so as to return the damaged property to a condition as good as reasonably possible before the damage was done. Such restoration must be made as soon as practicable after completion of work necessitating the restoration.

Absent force majeure, such restoration must be made insofar as reasonably possible within fifteen business days, weather permitting, after Company's receipt of notification from the owner of the property so damaged unless otherwise mutually agreed by Company and the property owner; provided, that if any such damage involves curbs, sidewalks or driveways, the damage must be repaired to the satisfaction of the Town (curbs and sidewalks) or the owner or tenant in possession of the property (driveways) within ten business days. Company shall provide the Town with immediate notice for any damage Company causes to: Streets, water-mains, storm or sanitary sewers, or other public facilities.

If Company does not make the repairs to such public facilities, Company shall be financially liable for the reasonable cost of any repairs. If Company fails to make such restoration on a timely basis, the Town may fix a reasonable time for such restoration and repairs and shall notify Company in writing of the restoration and repairs required and time fixed for performance hereof. Upon failure of Company to comply within the specified time period, the Town may cause proper restoration and repairs to be made and the reasonable expense of such work shall be paid by Company upon demand by the Town.

6. Contractors, Subcontractors and Agents

All contractors, subcontractors and agents of Company must be properly licensed under all applicable federal, state and local laws and regulations.

B. Cable System Location

1. Map of Physical Facilities

With reasonable advanced notice to Company, the Town shall have the right to inspect street maps which identify the location of all trunk and feeder runs including underground. Said maps will be maintained by Company and available upon request.

2. Location of System

Wherever available to Company on reasonable terms and conditions, the distribution system must use the existing facilities of the public utilities. Poles may not be installed for the sole purpose of supporting a portion of the distribution system without written justification and approval of the Town, which approval will not be unreasonably withheld, pursuant to the Town's generally applicable law, ordinances, rules and regulations.

a. Where the cable or wire facilities of the public utilities are installed underground, Company shall install its cable distribution system underground. Vaults and pedestals must be suitably landscaped.

b. In all areas where public utility lines are aerially placed, if subsequently during the term of this Franchise Agreement such utility lines are relocated underground, Company shall similarly relocate its cable distribution system underground at its sole expense. If other owners of utility lines or other users are entitled to reimbursement for such relocation costs and the source of funding for said reimbursement allows it, Company shall have its relocation costs reimbursed as well.

3. No Interference with Rights of Way

Except during temporary construction, installation, or maintenance activities, all lines, cables and distribution structure, and equipment, including poles and towers, erected, installed or maintained by Company within the Town must be located so as not to obstruct or interfere with the proper use of Streets and Public Ways and to cause minimum interference with the rights of property owners who abut any of the said Streets and Public Ways, and not to interfere with existing public utility installations. Company shall not place new poles, towers or other obstructions in Streets or Public Ways, or relocate existing poles, towers or other obstructions, without first obtaining the Town's approval, which approval must not be unreasonably withheld.

Company shall have no vested right in any location, and such construction must be removed by Company at its own cost and expense whenever the same restricts or obstructs or interferes with the operation or location or any future operation or location of said Streets or Public Ways by the Town for a municipal purpose.

Company shall at all times comply with applicable state laws including but not limited to 35-A M.R.S., Chapter 25 (e.g., pole location permits) and 23 M.R.S., §2351 (excavation permits).

4. Construction by the Town

If at any time during the term of this Franchise Agreement the Town shall elect to alter, or change the grade or location of any Street, or shall engage in any construction, reconstruction, widening, repairs or other public works in, on or under the Streets, Company shall, upon reasonable notice by the Town, remove and relocate its poles, wires, cables, conduits, manholes and other fixtures (“fixtures”) at its own expense, and in each instance comply with the Town’s generally applicable, non-discriminatory standards and specifications. If other owners of utility lines or other users are entitled to reimbursement of costs for relocations required by this section and the source of funding for said reimbursement allows it, Company shall have its relocation costs reimbursed as well.

5. No Interference with Other Fixtures

Company may not place fixtures above or below ground where the same will unreasonably interfere with any existing or fully permitted gas, electricity, telephone fixtures, water hydrants, or other utility use, and all such fixtures placed in or upon any Street must be so placed as to comply with all generally applicable requirements of the Town or other state authority.

6. Temporary Relocations

Company shall, on request of any Person holding a permit issued by the Town or other appropriate authority, temporarily move its fixtures to permit the moving or erection of buildings or other objects, with the expense of any such temporary removal to be paid in advance by the Person requesting same, and Company will be given reasonable notice to arrange for such temporary relocation. Company shall bear any expense to temporarily move its fixtures to permit the moving or erection of publicly owned or constructed buildings or other objects.

C. Communications

1. Company Notice

Except in an emergency, and except for interruptions of four hours or less, Company shall give Subscribers at least 24 hours’ notice, if practical, of any interruption of service for purposes of maintenance or repair. In an emergency, Company shall give such notice as is reasonable in the circumstances. Notice given on the alphanumeric channels on Basic Cable Service is considered sufficient. During the rebuild of the Cable System, Company is not required to provide 24 hour notice of any interruption of service if such interruption is the direct result of rebuild work. However, Company is required to provide written notification to Subscribers and the Town of planned rebuild work schedules and when Subscribers may experience service interruptions in excess of four hours. Company shall use its best efforts to minimize the length of any service outage due to the rebuild. Company shall promptly notify the Town in writing of any significant interruption in the operation of the Cable System. For this purpose, a “significant interruption” means any interruption of more than four hours to more than ten Subscribers.

2. Subscriber Requesting Maintenance

Subscribers may request maintenance at the Business Office of Company or by calling the toll-free telephone number each of which is required by 30-A M.R.S., §3010(1)(B).

3. Company Responses

Company responses to such requests are governed by the applicable standards of the Federal Communications Commission and state law.

4. Subscriber-Owned Equipment Excluded

The requirements for maintenance and repair do not apply to Subscriber television or radio receivers or other Subscriber-owned equipment.

11. OPERATIONS

Such description must include at a minimum, Cable materials, (i.e. coaxial cable or fiber), the bandwidth capacity of the system in MHz, the channel capacity of the system, bi-directional capability, overall measured system reliability and performance in respect to FCC requirements and any other relevant standards that the Company may wish to describe. This requirement does not preclude the Company from providing this information to the Town in advance of the signing of this Franchise Agreement.

b. If the Company elects to upgrade its system in the Franchise Area, the Company shall notify the Town.

2. Operations

The Cable System must be constructed, operated and maintained to comply with all applicable standards of the Federal Communications Commission.

B. Performance Testing

The Town is entitled to review copies of FCC Proof of Performance upon request.

C. Emergency Alert System

Company shall comply in full with the requirements for an Emergency Alert System (EAS) as provided in FCC regulations, 47 CFR Part 11, and with any applicable State emergency notification requirements not preempted by Federal law.

D. Subscriber Antennae

Notwithstanding a required disconnection of Subscribers' existing antennae and down leads to receivers connected to the Cable System, Company shall not remove or suggest to the Subscriber the removal of such antennae and down leads. Company shall furnish to each Subscriber so requesting, at the Subscriber's expense, a switch permitting the Subscriber to change from cable reception to home antenna reception, and back, at the option of the Subscriber. Installation of such switches at the time of initial installation of service to a Subscriber is without charge other than for such purchase cost.

E. Video Recording Device/Cable Compatibility

Company shall comply with applicable Federal Communication Commission standards for compatibility with consumer electronics equipment.

12. INSURANCE

A. Company Insurance

1. Throughout the term of this Franchise Agreement, including any extension or renewal thereof, the Company shall at its sole expense maintain insurance per the specifications and minimum limits set forth herein.

Each employee (disease): \$100,000.
Policy limit (disease): \$500,000.

d. Umbrella liability on an occurrence basis for:

Each occurrence limit: \$5,000,000.
Aggregate limit: \$5,000,000.

2. All policies are to be provided by a company, or companies, admitted to conduct business in the State of Maine. All policies must provide for thirty (30) days advance written notice to the Town prior to policy cancellation, non-renewal, or any modification which could adversely affect the Town.

B. Insurance to be Provided by Subcontractors

Company agrees to require that any written agreements between Company and its contractors, or between Company's Contractors and Contractor's Subcontractors will require the same provisions, coverages, and limits as in Article 12.A.

C. Indemnification of the Town

Company hereby agrees to indemnify and hold the Town, its officers, officials, agents, employees, members of boards and committees, with respect to the construction, installation, operation, maintenance, repair, service, reconstruction, removal, or other work of the Cable System, harmless from and against all expenses, losses and claims, demands, payments, suits, actions, recoveries, and judgments of any nature and description, other than as a result of the sole negligence of the Town, including reasonable attorney's fees, resulting from claims, any act or omission of Company, its agents or employees, in the construction, installation, operation, maintenance, repair, service, reconstruction, removal, or other work of its Cable System, or by reason of any suit or claim for royalties, license fees, or infringement of copyright or patent rights arising from Company's performance under this Franchise Agreement.

In the event of the commencement of any action against the Town, or its officers, officials, agents, employees, or members of boards and committees which is within the scope of this indemnification, the Town will give notice thereof to Company within fifteen business days after the Town is formally served in any such action, and, after consultation with the Town, Company will have the right to select and furnish counsel for the defense of any such action, at no cost or expense to the Town.

The Town's failure to give timely notice to Company of the commencement of any such action does not relieve Company of its obligations under this section unless such failure to give timely notice causes actual prejudice to Company's ability to defend any such claim.

Except for settlements involving only the payment of money, no settlement which creates an obligation for the Town, of any such action, or any claim therein, shall be made by Company or by counsel selected by Company without the approval of the Town, which approval may not be unreasonably withheld.

The extent of the indemnification agreement is not limited by the requirements for liability insurance in this Agreement.

D. Indemnification of Company

The Town will indemnify Company for any and all claims arising out of programming of PEG channels, except where Company or its agents or employees provided the programming.

E. Municipal Immunities

The provisions of this section, including the indemnity provisions in sub-section C and D and the procurement by Company of insurance policies meeting the requirements of this section 12, may not be interpreted or construed to effect any waiver, suspension, release or alteration of or to any and all immunity or other immunities or damage limits as may be available to the Town by law.

13. PERFORMANCE BOND

A. Performance Bond

Company shall obtain and maintain during the term of this Franchise Agreement, at its sole cost and expense, and file with Town, a performance bond, running to the Town, with a surety authorized to do business as a surety in the State of Maine, to guarantee the faithful performance by Company of all of its obligations under this Franchise Agreement. Such performance bond is to be in the amount of at least fifty thousand dollars (\$50,000).

B. Conditions

The performance bond must provide, but not be limited to, the following conditions. There shall be recoverable by the Town, jointly and severally from the principal and surety, subject to the provisions in Section 23(C), within 30 days after written request by the Town, any and all penalties due to the Town and any and all damages, losses, costs and expenses suffered or incurred by the Town resulting from the failure of Company to comply with the provisions of this Franchise Agreement. Such losses, costs and expenses include, but not be limited to, reasonable attorney's fees and other legal, consulting and auditing expenses. Not less than thirty days' prior notice to the Town must be provided of Company's or the surety's intention to cancel, materially change, or not to renew the performance bond.

C. Forfeiture

Subject to the provisions in Section 23C, the total amount of the bond or security fund must be forfeited in favor of the Town in the event Company fails to complete any construction or rebuild obligations or breaches any material provision of this Franchise Agreement.

D. Replenishment

In the event that any portion of the performance bond is forfeited or withdrawn for any reason, Company is required to post an additional bond in an amount equal to the forfeiture within 30 days of the date of the forfeiture or withdrawal. Failure to post an additional bond on a timely basis constitutes a violation of a material provision of this Franchise Agreement within the meaning of Section 23 hereof.

E. Town Rights

The rights reserved to the Town with respect to the Performance Bond are in addition to all other rights of the Town, whether reserved by this Franchise Agreement or authorized by law, and no action, proceeding or exercise of a right with respect to such sections affects any other rights the Town may have.

14. RECORDS and REPORTS

A. Availability of Records to the Town

Upon reasonable written notice to the Company, the Town has the right to inspect Company's books and records during Normal Business Hours and on a non-disruptive basis, as are reasonably necessary to ensure compliance with the material terms of this Franchise Agreement, including any federal, state, laws or regulations or generally applicable ordinances referenced herein. Records should be produced within 5 business days of receipt of written request, unless for good cause Company responds that a longer amount of time will be needed. Such written

notice from the Town must specifically reference the section or subsection of the Franchise Agreement which is under review, so that Company may organize the necessary books and records for appropriate access by the Town. Company may not be required to maintain any books and records for Franchise Agreement compliance purposes longer than three (3) years.

Notwithstanding anything to the contrary set forth herein, Company may not be required to disclose information that it reasonably deems to be proprietary or confidential in nature, nor disclose any of its books and records not relating to the provision of Cable Service in the Franchise Area. The Town shall treat any information disclosed by Company as confidential and shall only disclose it to employees, or the Town's agents bound by a confidentiality and non-disclosure agreement reasonably acceptable to Company, or as may be necessary to enforce the provisions hereof. Company shall not be required to provide Subscriber information in violation of Section 631 of the Communications Act, and 47 USC §551. Company shall at all times after the effective date maintain:

Records of all written complaints for a period of two (2) years after receipt by Company (The term "complaint" as used herein refers to complaints about any aspect of the Company's service operations, Complaints recorded will not be limited to complaints requiring an employee service call.);

Records of area outages for a period of two (2) years after occurrence, indicating date, duration, and the number of Subscribers affected, type of area outage, and cause; Records of service calls for repair and maintenance for a period of two (2) years after resolution by Company, indicating the date and time service was required, the date of acknowledgment and date and time service was scheduled (if it was scheduled), and the date and time service was provided, and (if different) the date and time the problem was resolved;

Records of installation/reconnection and requests for service extension for a period of two (2) years after the request was fulfilled by Company, indicating the date of request, date of acknowledgment, and the date and time service was extended; and a map showing the area of coverage for the provisioning of Cable Services.

The Town reserves its right to copy books and records as allowed under FCC regulation.

B. Annual Report

Upon written request from the Town, Company shall provide to the Town a summary of the Company's activities in the Town for the previous calendar year including a summary of:

1. Total number of cable subscribers;
2. Total miles of new cable plant installed;
3. Total number of service calls indicating number of dispatches and number repaired;
4. Listing of all charges and fees for cable or cable-related services;
5. All area outages, including date and duration;

6. The total revenues upon which a franchise fee (if any) is paid (broken down by major category);
7. The total franchise fee for the year;
8. Equipment or equivalent funding provided to the PEG channels(s) (if any);
9. Other information Company chooses to include.

C. Charges for Audits or Tests

If an inspection or audit of Company's records shows that Company underpaid the franchise fee by four percent or more for any payment period, Company shall reimburse the Town for all reasonable costs including expert fees arising from the inspection or audit, and any additional inspection or audit until it is determined Company is in full compliance. In addition, except as federal law prevents the Town from enforcing any standards, if it is determined that Company has not materially complied with FCC standards, the Town has the right to charge all costs arising from these tests, including expert fees, to Company until it is determined that Company is in full compliance.

Notwithstanding the foregoing, the obligation to pay the Town's costs for tests of the performance of the Cable System only arises if the Town's test is (1) a test of an area where Company has represented that it has corrected a problem, and the problem was not in fact corrected; (2) a second test of an area by the Town, where Company had been notified of the problem and been given an opportunity to cure it; or (3) where Company challenged the validity of a Town test, and the Town agrees to re-test, and the re-test confirms the validity of the initial Town test. These charges are incidental to the enforcement of the Franchise Agreement; they do not limit any right the Town may have to exercise any other remedy.

16. PUBLIC, EDUCATIONAL and GOVERNMENTAL ACCESS (PEG)

A. Use of PEG Access Channels

Channel capacity for public, educational and governmental (“PEG”) access must be provided in accordance with federal law, 47 USC §531 and §546, and as further set forth below. Company’s obligations to provide PEG capacity to the Town is in accordance with Exhibit A attached hereto.

B. Channels

Company shall provide the Town with one channel for non-commercial public, educational and governmental (“PEG”) access programming. During the term of this Franchise Agreement, upon agreement of the Town and Company, a second PEG channel will be provided if the Town and the Company determine that a second PEG channel is needed. The costs associated with adding this channel will be borne by the Town.

In order to request additional PEG Channel(s), the existing PEG Access Channels must be used to cablecast first run, non-repetitive, locally produced, non-commercial, non-alpha numerical, programming at least fifty percent (50%) of the time during any consecutive six-hour period between 4:00 PM and 10:00 PM for four (4) consecutive months. Said programming may not include programming that is used primarily for monitoring purposes, such as traffic monitoring. The Town must provide Company with written, detailed documentation evidencing the usage meets the threshold requirement for a second Channel.

In the documentation to the Company, the Town shall state, in good faith, that such a second Access Channel (i) will be substantially programmed with non-duplicated, locally produced, non-character generated programming; and (ii) is necessary to accomplish the stated Access Programming goals of the Town. Such a second Access Channel will not be used simply to repeat Access Programming that is already carried on the other Access Channel, but will be used to carry substantially new locally produced Access Programming.

The Town agrees that such a second Access Channel will not be utilized solely to carry character-generated messages; provided, however, that the Town may use said second Access Channel to carry character-generated messages along with other new locally produced Access Programming.

If there is a Channel available at the time of the Town's written request for an additional Channel under this Section, the Company shall make a Channel available within twelve (12) months. If there is no Channel available on the Basic Cable Service tier, the Company has twenty-four (24) months following receipt of the Town's written request in which to make such new Channel available. Once the threshold is met and the additional Channel given, each of the initial PEG Channels must maintain the threshold requirement.

If any of the initial PEG channels fail to meet the threshold for four (4) consecutive months, the additional PEG capacity may be reclaimed by Company upon sixty (60) calendar days written notice. Under no circumstances will the Town lose the right to its initial PEG Channel.

C. PEG Facilities and Equipment Support

Within sixty (60) days of the Effective Date of this Agreement, Company shall provide to the Town a capital payment in the amount of one hundred twenty-five thousand dollars (\$125,000) to assist the Town in acquiring, constructing and equipping the Public, Educational or Governmental access facilities and equipment to meet the needs of the community and the Town.

D. Reimbursement for PEG Costs Associated with Relocation of Channel

If a PEG channel is relocated by Company, Company shall reimburse the PEG provider for costs associated with changing logos, letterhead, business cards etc. to reflect a new channel number not to exceed two thousand five hundred dollars (\$2,500). The Town and Company may also negotiate the promotion of this change. Company will provide the Town with at least 30 days notice of any relocation of any PEG channel.

17. BUILD OUT

Company shall make Cable Service available to every residential dwelling unit within the Town where the minimum density is at least twenty (20) dwelling units per aerial mile and forty (40) dwelling units per underground mile, providing however, that any plant extension is measured from the existing Trunk and Distribution System and Company is able to obtain from property owners any necessary easements and/or permits on terms and conditions acceptable to Company. Subject to the density requirement, Company shall offer Cable Service at standard installation rates to all new homes or previously unserved homes located within 125 aerial feet of Company's Distribution Cable.

For non-Standard Installations (those exceeding 125 aerial feet or underground) Company shall, upon receipt of payment and pending any identified construction or other issues (e.g., make ready, weather) offer said service within thirty (30) days of a Subscriber requesting such for aerial installations and sixty (60) days of a Subscriber requesting such for underground installations.

2. Regardless of the density requirements outlined above, Company shall provide a cost-sharing arrangement as follows. On the request of a resident desiring service, Company shall prepare an engineering survey and cost analysis to determine the cost of plant extension required to provide service to the subscriber.

If a request for extension of service into a residential area requires the construction of cable plant that does not pass at least twenty homes per mile (aerial) or forty homes per underground mile Company and those residents requesting cable services will each bear their proportionate share of construction costs.

For example, if there are ten single family homes per aerial mile who agree to subscribe to cable service, Company shall share one-half of the construction cost and the remaining cost will be shared equally among the residents requesting cable services. Company may require advance payment of the customer pro-rata cost prior to commencing construction.

3. Installation costs must conform with the Cable Act. Any dwelling unit within 125 aerial feet of the Trunk and Distribution Cable is entitled to a Standard Installation rate in accordance with applicable federal and state laws. Underground installations are considered non-standard installations. All non-standard installations must be provided at a rate established by the Company in accordance with applicable federal and state laws.

4. Provided Company has at least ninety (90) days' prior written notice concerning the opening of residential subdivision trenching, or of the installation of conduit for the location of utilities, and the density requirements outlined above are met, it must install its cable in such trenching or conduits or may seek permission to utilize alternative trenching or conduits within a comparable time frame. The Town, or its designee, shall exercise reasonable efforts to have the Planning Board and developers give timely written notice of trenching and underground construction to Company. Developer shall be responsible for the digging and back-filling of all trenches.

Upon request, Company and Town will meet to discuss the Town's networking needs.

In the event a federal or state law, regulation or decision by a court of competent jurisdiction renders a provision in this Franchise Agreement void or otherwise unenforceable, the provision is considered preempted. This preemption will last for as long as the law, regulation or decision is effective; if the law, regulation or decision is subsequently repealed, rescinded, amended, voided, overturned or otherwise changed so that the preemption is nullified, the provision thereupon returns to full force and effect as provided by such proceeding and is binding and enforceable in accordance with the terms thereof.

No course of dealing between the Company and the Town, nor any delay on the part of the Town or Company in exercising any rights hereunder, operates as a waiver of any such rights of the Town or Company or acquiescence in the actions of the Company or the Town in contravention of such right, except to the extent expressly waived by either party or expressly provided for in this Franchise Agreement. No decision by the Town or Company to invoke any remedy under this Franchise Agreement or under any statute, law or ordinance precludes the availability of any other such remedy.
