1.4 PRICE LIST FORMAT

1.4.1 LOCATION OF MATERIAL

- A. Section 1 provides the following for all of the sections in this Price List:
- Subject Index - an alphabetical listing to find the desired section.
 - Table of Contents - A numerical listing to find the desired section and page.
- B. Each individual section in the Price List provides a Subject Index for the material located within that section.

1.4.2 PAGE NUMBERING

Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the Price List. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.

1.4.3 PAGE REVISION NUMBERS

Release numbers generally appear in the upper right corner of each Page. These numbers are used to determine the most current page version on file with the Commission. For example, Release 1 cancels Release 1. Because of various suspension periods, deferrals, etc., the Commission follows in their approval process, the most current page number on file with the Commission is not always the price list page in effect.
