OPERATOR ASSISTED SERVICES

7.1 OPERATOR SERVICES

7.1.1 General

A service charge will apply to calls placed with the assistance of a Company Operator. Various billing arrangements are available with Operator Assisted Service including Operator Station (Collect, Billed to Third Party, other Operator Assisted) and Person-to-Person. Calls may be completed or billed by an employee or a mechanized response system in the Company's operator center.

7.1.2 Operator Station

An Operator Station service charge applies when calls are completed with the assistance of a Company Operator, except as specified for Person-to-Person.

Customers who cannot physically dial a call can qualify for the Operator Assisted exemption that provides the Customer with operator assistance at a direct dialed rate without service charge. No application/certification is required for this program; however, the Customer must request this exemption.

7.1.3 Person-to-Person

Person-to-Person charges apply when the calling party specifies to the operator a particular person to be reached, or a particular station, department, or office to be reached through a PBX or Centrex attendant. After the called station has been reached, if the called party is unavailable and the calling party requests or agrees to speak to a party other than the party initially specified, the call is still billed as a Person-to-Person call. The calling party is responsible for identifying the party at the called station.
