

SERVICE GUIDE FOR TELECOMMUNICATIONS SERVICES

SERVICE CONNECTION AND MAINTENANCE CHARGES

4.1 GENERAL

Telecommunications Services are subject to nonrecurring service charges that apply to Customer requests for connecting, moving or changing service. They are in addition to any other scheduled rates and charges that would normally apply under this service guide.

Charges for the connection, move or change of service will apply for work being performed during the Company's normal business hours. If the Customer requests that overtime labor be performed at a premises on the day or days of the week other than normal work hours or on holidays, or interrupts work once it has begun, an additional charge may apply based upon the additional cost involved.

All changes in location of the Customer's service from one premises to another, except as otherwise provided in this Section, are treated as new service connections with the appropriate Service Charges applying.

4.2 SERVICE CONNECTION AND LINE ACTIVATION CHARGES

A Service Connection Charge or Line Activation Charge applies when a Customer requests establishment of new service. The requirement to install certain facilities or equipment, or the presence of such facilities or equipment, will determine whether the Service Connection Charge or the Line Activation Charge will apply.

- A. The Service Connection Charge will apply to the installation of certain facilities and equipment, and to any change of location of such facilities and equipment.
- B. The Line Activation Charge applies per line if certain facilities and equipment are suitably installed and located to facilitate the establishment of the Customer's service. This charge applies to the primary line as well as to any additional lines on the Customer's premise. Available lines not activated at the establishment of the account will be subject to this charge when subsequently activated.

Effective Date: July 1, 2007

4.3 SERVICE CHANGE CHARGES

Service Change Charges apply per line when a Customer requests a change in existing service.

- A. Telephone Number Change - A charge applies to each Customer-requested change in telephone number.
- B. Feature Change Charge - Applies to an existing Local Service line when the Customer requests to add or change a standard feature. This charge is assessed per access line for each occurrence.
- C. Primary Interexchange Carrier (PIC) Change Charge - A PIC Change Charge will apply to existing Local Service Customers who request a change in their PIC designation for pre-subscription of interLATA or intraLATA services. The charge is applied on a per access line basis. If the Customer changes both the interLATA PIC and the intraLATA PIC on the same line or trunk at the same time to a single carrier, only one PIC Change Charge will be incurred by the Customer. If the Customer changes both the interLATA PIC and the intraLATA PIC on the same line or trunk at the same time to separate Carriers, two PIC Change Charges will apply.
- D. Primary Local Carrier (PLOC) Change Charge - A PLOC Change Charge will apply to existing Local Service Customers who request a change in their Local Exchange Carrier. The charge is applied on a per access line basis.
- E. Customer Change to Washington Telephone Assistance Program - No charge applies when an existing Customer requests a change in their local service to the Washington Telephone Assistance Program.
- F. Directory Listing Change Charge - A charge will apply to each Customer-requested change in directory listing.
